Calculating your FBA fees

Simply add together your fulfilment and storage fees and any optional services you require to calculate your total FBA Fee. Calculate your fulfilment fee by identifying the destination country, ship speed, and size band of your units shipped.

1. Fulfilment Fee

A flat fee per unit, based on both dimensions and unit weight (unit weight or dimensional weight).

Envelopes, Special oversize products and products fulfilled via Low-Price FBA are charged as per the actual unit weight of the product. Parcel and oversize tiers (excluding Special oversize) are charged as per the greater of the unit weight or the dimensional weight. The dimensional weight in kilograms is calculated as (length x width x height cm^3) divided by 5000.

See pages 5-18 to find out more

2. Storage Fee

Charged per cubic metre per month or cubic foot per month.

Monthly storage fees - Storage fees are charged for all items stored in an Amazon fulfilment centre based on fulfilment centre location, calendar month, and your daily average volume of inventory.

Aged Inventory Surcharge - Applies to inventory stored for: More than 241 days.

Storage utilisation surcharge - Applies for professional sellers with a storage utilisation ratio above 22 weeks and for products outside of clothing, eyewear, shoes and bags. The ratio is calculated as the average daily inventory volume stored divided by the average daily shipped volume over the past 13 weeks.

See pages 19-20 to find out more

3. Optional Services Fee

Includes local returns, cross-border returns (see zone 1 and zone 2 definitions), disposal, labelling, bagging, bubble wrap, taping, and opaque bagging. Services are charged per unit.

See pages 21-25 to find out more

4. Referral Fee

Amazon charges a referral fee for each item sold. The amount depends on the product category. Most referral fees are between 8% and 15%.

We calculate the Referral fees based on the Offer Price that you provide.

See pages 26-28 to find out more

Use our revenue calculator

The Revenue Calculator is a preview tool that allows you to compare revenue estimates for products based on the fulfilment channel used. Easily see which fees apply to each fulfilment option and enter sales volume estimates to calculate total proceeds, as well as per-unit sold estimates.

1 An additional per-unit fee of £0.10, €0.10, SEK 1.00 and PLN 0.40 for products that contain or are sold with lithium batteries and for dangerous goods (also known as hazmat) is applied to cover the additional costs associated with processing these products.
2 Other fees may apply. See page 9 for the Low-inventory cost coverage fee and the Pan-EU Oversize surcharge, page 20 for additional storage fees and page 21 for other optional fees
3 Domestic and Pan-European FBA fees will be introduced in Ireland in 2025. You can find these fees on page 15.
4 Fees will differ parcel size products in selected categories. Go to page 8 for more info.
5 Peak fee applies to FBA orders for UK and Germany from 15/10/2025 to 14/01/2026, excluding oversize and Low-Price FBA items.
6 For parcels (excluding Low-Price FBA: excluding items in clothing, accessories, Rucksacks, and handbags) and oversize items (excluding special oversize), we use the greater of the dimensional weight and the unit weight to determine the shipping weight. For all other items, including envelopes, items fulfilled via Low-Price Fulfilment by Amazon (FBA), and special oversize products, we use the unit weight. Go here for more info.
7 The fees will differ if you have FBA inventory in Germany and do not participate in the Central Europe Programme by allowing Amazon to store your German FBA inventory in Poland and the Czech Republic. You are charged an additional £0.26, €0.26, SEK 2.50, or PLN 1.15 of fulfilment fee per FBA unit shipped from German fulfilment centres for both standard FBA and Low-Price FBA Rates. Units sold in Germany from Poland are charged the German domestic fee

Pan-EU Oversize Surcharge

Effective 1st February 2025

The Pan-European (Pan-EU) Fulfilment by Amazon (FBA) oversize surcharge applies on top of Pan-EU FBA fulfilment fees if the country in which you ship your oversize inventory to us is different from the country in which your inventory is sold. To determine the surcharge rates applicable to a given product, first determine its size tier and its shipping weight. The shipping weight is calculated based on the item's unit weight or dimensional weight. For detailed definitions of each size tier, go to Product size tier and Dimensional weight. The Pan-EU FBA oversize surcharge is based on the historical inbound minus sales quantity metric, which is the difference between the total units shipped to fulfilment centres and the total units sold for a given FNSKU in a given country. For more details go to Pan-EU FBA oversize surcharge.

Pan-EU Low-Inventory Cost Coverage Fee

Effective 1st February 2025

A low-inventory cost coverage fee (Pan-EU) applies to standard-size products fulfilled through the Pan-European FBA (Pan-EU) programme when inventory units are less than 28 days relative to shipped units across Germany, France, Italy and Spain. This fee only applies if a product's historical inventory levels relative to historical demand (known as historical days of supply) is below 28 days. We only charge the low-inventory cost coverage fee (Pan-EU) when both the long-term historical days of supply (last 90 days) and short-term historical days of supply (last 30 days) are below 28 days (4 weeks). For more information see here.

1 Does not apply to the Netherlands, Poland, Sweden, Belgium and Ireland. We will calculate the historical days of supply metric at the seller-FNSKU level based on average daily inventory units on hand divided by average daily shipped units across Pan-EU stores, over both the long term (last 90 days) and short term (last 30 days).
2 For parcels (excluding Low-Price FBA, clothing, accessories, rucksack and handbags) and oversize items (excluding special oversize), we use the greater of the dimensional weight and the unit weight to determine the shipping weight. For all other items, including envelopes, items fulfilled via Low-Price Fulfilment by Amazon (FBA), and special oversize products, we use the unit weight. Go here for more info.

European Fulfilment Network

Effective 1st February 2025

The European Fulfilment Network allows FBA sellers with an EU account to store their inventory in local fulfilment centres and fulfill orders from other EU stores, maximizing inventory control and flexibility. Remote Fulfilment with FBA, previously known as the European Fulfilment Network between the UK and EU, helps you to sell across the border without needing to send inventory to your destination store or get a Value Added Tax (VAT) number. For more information, see here.

1 The Returns Processing Fee is equal to 50% of the total fulfilment fee for a given product in the Clothing and Shoes categories.
2 Fees will differ for clothing, accessories, rucksacks, and handbags categories. Go to page 8 for more info.
3 Peak fee applies to FBA orders for UK and Germany from 15/10/2025 to 14/01/2026, excluding oversize and Low-Price FBA items.
4 We may review European Fulfilment Network fees and make adjustments with a 30-day notice when the foreign exchange rate change between the British pound and the euro exceeds 5% on a monthly, quarterly or yearly basis.
5 An additional per-unit fee of £0.10, €0.10, SEK 1.00 and PLN 0.40 for products that contain or are sold with lithium batteries and for dangerous goods (also known as hazmat) is applied to cover the additional costs associated with processing these products.
6 European Fulfilment Network fees will be introduced in Ireland in 2025. You can find these fees on page 15-18.
7 Go here to see the Remote Fulfillment Fees from the UK to MENA countries, including UAE.
8 For parcels: (excluding items in clothing, accessories, rucksacks, and handbags) (small parcels or standard parcels) and oversize items (excluding special oversize), we use the greater of the dimensional weight and the unit weight to determine the shipping weight. For all other items, including envelopes, items fulfilled via Low-Price Fulfilment by Amazon (FBA), and special oversize products, we use the unit weight. Go here for more info.
9 The fees will differ if you have FBA inventory in Germany and do not participate in the Central Europe Programme by allowing Amazon to store your German FBA inventory in Poland and the Czech Republic. You are charged an additional £0.26, €0.26, SEK 2.50, or PLN 1.15 of fulfilment fee per FBA unit shipped from German fulfilment centres for both standard FBA and Low-Price FBA Rates. Units sold in Germany from Poland are charged the German domestic fee

European Fulfilment Network for parcel size products in selected categories

1. Effective 15th Oct 2025 for the UK, France, Germany, Italy, and Spain Stores
2. Effective 1st Nov, 2025 for Netherlands, Belgium, Sweden, Poland and Ireland stores

The European Fulfilment Network allows FBA sellers with an EU account to store their inventory in local fulfilment centres and fulfill orders from other EU stores, maximizing inventory control and flexibility. Remote Fulfilment with FBA, previously known as the European Fulfilment Network between the UK and EU, helps you to sell across the border without needing to send inventory to your destination store or get a Value Added Tax (VAT) number. For more information, see here.

1 The Returns Processing Fee is equal to 50% of the total fulfilment fee for a given product in the Clothing and Shoes categories.
2 The FBA fulfilment fee rates for Ireland are promotional: -50% discount on Domestic/Pan-EU fee rates and -45% average discount on EFN fee rates vs. the standard (non-promotional) rates. These promotional rates are valid in Ireland from 2025. We may review fees and make adjustments with a 30-day notice.
3 The fees will differ if you have FBA inventory in Germany and do not participate in the Central Europe Program by allowing Amazon to store your German FBA inventory in Poland and the Czech Republic. You are charged an additional £0.26, €0.26, SEK 2.50, or PLN 1.15 of fulfilment fee per FBA unit shipped from German fulfilment centers for both standard FBA and Low-Price FBA Rates.
4 An additional per-unit fee of £0.10, €0.10, SEK 1.00 and PLN 0.40 for products that contain or are sold with lithium batteries and for dangerous goods (also known as hazmat) is applied to cover the additional costs associated with processing these products. Other fees may apply. See page 20 for storage fees and page 21 for other optional fees.
5 We may review European Fulfilment Network fees and make adjustments with a 30-day notice when the foreign exchange rate change between the British pound and the euro exceeds 5% on a monthly, quarterly or yearly basis.
6 FBA fees and Low-Price FBA fulfilment fees will be introduced in Ireland in 2025.
7 For parcels (excluding Low-Price FBA) and oversize items (excluding special oversize), we use the greater of the dimensional weight and the unit weight to determine the shipping weight. For all other items, including envelopes, items fulfilled via Low-Price Fulfilment by Amazon (FBA), and special oversize products, we use the unit weight. Go here for more info.

1 Does not apply to the Netherlands, Poland, Sweden, Belgium and Ireland.
2 Fees will differ for clothing, accessories, Rucksacks, and handbags categories. Go to page 8 for more info.
3 For parcels (excluding Low-Price FBA: excluding clothing, accessories, rucksacks, and handbag categories) and oversize items (excluding special oversize), we use the greater of the dimensional weight and the unit weight to determine the shipping weight. For all other items, including envelopes, items fulfilled via Low-Price Fulfilment by Amazon (FBA), and special oversize products, we use the unit weight. Go here for more info.

Storage Fees
Monthly Storage Fees

Effective 1st February 2025

Monthly storage fees are charged for all units stored in an Amazon fulfilment centre based on calendar month and your daily average volume (measured in cubic feet for the United Kingdom and cubic metres for the other European stores). The measurement of any unit will be based on the unit's size when properly packaged and ready for shipping to customers in accordance with the FBA programme policies. Monthly storage fees consist of base monthly storage fee, which is determined by product size and time of year, and storage utilisation surcharge, which is in addition to the base monthly storage fee. For more information, see here.

Storage Fees
Storage Utilization Surcharge

Effective 1st February 2025

In addition to the base monthly storage fee, this surcharge is based on storage utilisation ratio, which is the ratio of your average daily inventory volume stored divided by the average daily shipped volume during the past 13 weeks. The storage utilisation ratio is calculated for each product size tier outside of clothing, eyewear, shoes and bags categories, which means you may have a storage utilisation ratio for standard-size products (outside of clothing, eyewear, shoes and bags categories), and a different storage utilisation ratio for oversize products. For more information, see here.

		Storage Utilization Surcharge[1,2]	
	Ratio[3] (weeks)	Standard Size	Oversize
UK (£/ft³/month)	Ratio ≤ 22		
	22 < Ratio ≤ 28	0.42	0.12
	28 < Ratio ≤ 36	0.78	0.25
	36 < Ratio ≤ 44	1.04	0.45
	44 < Ratio ≤ 52	1.41	0.62
	Ratio > 52	2.29	0.81
DE/FR/IT/ES (€/m³/month)	Ratio ≤ 22		
	22 < Ratio ≤ 28	14.85	4.29
	28 < Ratio ≤ 36	27.05	7.92
	36 < Ratio ≤ 44	37.61	13.37
	44 < Ratio ≤ 52	46.55	17.33
	Ratio > 52	76.87	23.10

1 The Storage Utilization Surcharge may apply in addition to the monthly storage fees.
2 The storage utilisation surcharge does not apply to new sellers, sellers with Individual selling accounts and sellers with less than 25 cubic feet of daily volume. New sellers are defined as sellers who sent their first shipment to a fulfilment centre less than 52 weeks ago. After the 52-week period, these sellers will be subject to a storage utilisation surcharge based on their storage utilisation ratio.
3 The ratio is calculated on the last day of a given month as the average daily inventory volume stored divided by the average daily shipped volume over the past 13 weeks. If you meet the criteria for the storage utilisation surcharge, the surcharge will be added to your base monthly storage fee and applied to the daily average volume for the space that your inventory occupies in fulfilment centres, resulting in a higher total monthly storage fee.

Storage Fees
Aged Inventory Surcharge

Effective 15th February 2025

Inventory that is overstocked limits our ability to provide space for fast-selling products that customers want. The aged inventory surcharge helps ensure that we can continue to provide high levels of service to all sellers and provide customers with products that they want. This is in addition to regular inventory storage fees. This applies differently for various items, with more information available here.

Optional Services

Effective 1st February 2025

FBA Prep Service helps you to properly package and prepare your shipments for Amazon's fulfilment centres. If you use the FBA Prep Service, we'll prep your products for a per-unit fee.

If you do not provide box content information, we will manually process your boxes at the fulfilment centre and a fee will apply. Shipments that are manually processed may be received more slowly than shipments with box content information. See more information here.

1 If VAT is applicable, it will be assessed in addition to the manual processing fee.
2 The fees are charged the earlier of (i) 14 days after the first unit of your shipment is received at the fulfilment centre, and (ii) at the end of the month after the first unit of your shipment is received at the fulfilment centre. You are charged for the number of units received as of the date when the fee is charged. If your shipment contains units that are received after the FBA manual processing fee has already partially been charged on the shipment, you are charged for the additionally received units at the next 14 day or end of month interval.
3 Fees are charged in the currency of the country of inbound. If you're selling in the UK, you're charged in £, and if you're selling in other EU stores, you're charged in € and SEK.

High-Return-Rate Return Processing Fees

Effective 1st February 2025

This is for high-return-rate products in all categories, excluding clothing, accessories and footwear. The fee will only apply to products that have return rates above a threshold specific to each category. Your product's return rate will be the percent of your product's shipped units in a given month that are returned by customers over that month and the subsequent two calendar months. See more information here.

1 The Returns Processing Fee is equal to 50% of the total fulfilment fee for a given product in the clothing, accessories and footwear categories.
2 For parcels (excluding Low-Price FBA) and oversize items (excluding special oversize), we use the greater of the dimensional weight and the unit weight to determine the shipping weight. For all other items, including envelopes, items fulfilled via Low-Price Fulfilment by Amazon (FBA), and special oversize products, we use the unit weight. Go here for more info.

Frequently Asked Questions
FAQs

Fulfilment by Amazon Fees

Q1: If I am selling on Amazon, do I pay other fees in addition to the fulfilment fees, storage fees, and optional service fees?
Yes, you pay a subscription fee or per-item fee depending on your current selling plan. You also pay a referral fee per category and closing fee per media item sold. A returns processing fee is charged on customer-returned products sold on Amazon (see FAQ 4). To see which fees and selling plan apply to you, please visit Selling on Amazon Fee Schedule and Seller Pricing and Plans.

Q2: How are Storage Fees calculated?
Storage Fees are charged for all units stored in an Amazon fulfilment centre based on calendar month and your daily average volume per cubic metre (or cubic feet for UK). The cubic metre of any unit will be based on the unit's size as properly packaged and ready for shipment to customers in accordance with FBA programme policies. Amazon will be entitled to make its own measurement of the cubic metre or weight of any packaged unit or representative sample thereof and in the event of any conflict between such measurement and information provided by the seller, Amazon's measurement will govern.

Q3: How do you calculate Pan-EU oversize surcharge?
We will use a metric called the historical inbound minus sales quantity. The metric is calculated at the seller-FNSKU and the Pan-EU store level as the difference between total inbound receive units and total shipped units, over both the long-term (last 150 days) and short-term (last 30 days) periods.

The historical inbound minus sales quantity metric is calculated based on the inbound receive units and shipped units of the Pan-EU stores in Germany, France, Italy and Spain. The Pan-EU surcharge for oversize items will only apply to a product when both its long-term and short-term historical days of supply are below zero (<0).

Q4: What is the returns processing fee?
Starting on February 1, 2025, we'll introduce a returns processing fee for high-return-rate products in all categories, excluding clothing and, shoes, to address the operational costs of returns and to reduce waste. The fee will only apply to products that have return rates above a threshold specific to each category. The first charge will be between the 7th and 15th of May 2025.

Your product's return rate will be the percent of your product's shipped units in a given month that are returned by customers over that month and the subsequent two calendar months. For a given month's shipped units, the returns processing fee will be charged for each returned unit above the product category's return rate threshold.

For products in the clothing and shoes categories, the returns processing fee is equal to 50% of the total fulfilment fee for a given product. This fee applies to units fulfilled from local inventory as well as across Europe though the European Fulfilment Network (EFN) program. For more information visit Returns Processing Fee page.

Q5: Are media and non-media items that are Sold On Amazon charged different Fulfilment Fees?
Media and non-media items that are Sold On Amazon are charged the same Fulfilment Fees.

Q6: What is the low inventory cost coverage fee?
A low-inventory cost coverage fee (Pan-EU) will apply to standard-size products fulfilled through the Pan-European FBA (Pan-EU) programme when inventory units are less than 28 days relative to shipped units across Germany, France, Italy and Spain. When sellers carry low inventory relative to shipped units, we're unable to distribute products across our network optimally, which reduces delivery speed and drives higher shipping costs. The low-inventory cost coverage fee (Pan-EU) will only apply if a product's historical inventory levels relative to historical demand (known as historical days of supply) is below 28 days. We will only charge the low-inventory cost coverage fee (Pan-EU) when both the long-term historical days of supply (last 90 days) and short-term historical days of supply (last 30 days) are below 28 days (4 weeks), otherwise sellers will not incur the fee.

Q7: What is the Ships in Product Packaging discount?
Ships in Product Packaging (formerly known as Ships in Own Container) is a programme in which products are shipped to the customer in their original packaging, without any additional packaging from Amazon.

Products that are certified for this programme will automatically receive lowered Fulfilment by Amazon fulfilment fees on each certified unit shipped. Products may be certified by Amazon if their packaging meets the guidelines for the programme, or they may be enrolled in the programme when packaging is adapted to meet these guidelines.

For details on Ships in Product Packaging guidelines and how to enrol, go to our programme page.

Q8: What is the aged inventory surcharge?
Inventory that is overstocked or stored indefinitely in our fulfilment centres limits our ability to provide space for fast-selling products that customers want. The aged inventory surcharge helps us ensure that we can continue to provide high levels of service to all sellers and provide customers with products that they want. Inventory items that have been stored in our fulfilment centres for extended periods will incur a monthly aged inventory surcharge depending on the period and marketplace.

Fulfilment by Amazon Policies

Q9: Am I restricted on the types of products I can fulfil through FBA?
Yes. Please consult the FBA product restrictions for detailed information about product restrictions.

Q10: How do customer returns work?
Amazon processes your customer returns using Amazon's customer returns policies. Reimbursement credits and referral fee credits are issued to you for all or part of the value of a refund. FBA fees, restocking fees, and returns processing fees may be charged depending on the item. For more information on how the fees or credits are applied to your account, please visit FBA customer returns policy.

Q11: What happens if my items are damaged or lost when being handled by FBA?
You may be eligible for a reimbursement. For eligibility criteria and more information on the policy, see FBA Lost and Damaged Inventory Reimbursement Policy.

Q12: Do my customers receive Amazon's customer service?
For items sold on Amazon, Amazon will handle fulfilment and customer service for their orders. This customer service includes managing customer enquiries, refunds and returns for FBA items bought on the Amazon website.

Q13: What are Amazon's policies and requirements for preparing and shipping inventory to fulfilment centres?
Amazon has label, packaging, preparation, and inventory storage limit requirements. For detailed information on inventory requirements, visit Amazon Inventory Requirements.

For more information, visit Amazon Policies and Requirements.

Additional Services and Programs

Q14: What is the Central Europe Program (CEP)?
Amazon has extended its German Fulfilment network with several Fulfilment centres in Poland and Czech Republic in order to fulfil growing demand and increase efficiencies. Sellers with German inventory can opt to either store their inventory in Amazon's fulfilment network including Poland and Czech Republic or continue to store their inventory exclusively in Germany. Sellers storing their inventory exclusively in Germany are charged an additional £0.26/€0.26/€0.27 (for FR inclusive of DST)/2.50 kr/1.15 zł of Fulfilment Fee per FBA unit shipped from German fulfilment centres. Pan EU Sellers who do not participate in CEP are also charged this additional fee. Some product categories may not be eligible for the CEP. Amazon charges no extra costs for participation in the CEP. Remember: it is the responsibility of the seller to know that storing inventory in Poland and Czech Republic will trigger VAT obligations and other reporting requirements. For more information, please visit the Central Europe Programme page.

Q15: What are the cross-border fulfilment options?
Fulfilment by Amazon offers three cross-border fulfilment solutions: Pan-European FBA, European Fulfilment Network (EFN), and Multi-Country Inventory (MCI).

Q16: What is Pan-European FBA?
With Pan-European FBA, Selling Partners choose where to store their products for Amazon to distribute them according to expected customer demand, at no additional cost. In the countries enabled for placement, Selling Partners will benefit from local FBA fulfilment fees and faster delivery promise[1]. By storing goods in additional countries other than the home store, additional VAT reporting requirements may arise. Amazon supports Selling partners by providing resources and solutions that can help with VAT compliance. VAT Services on Amazon is a solution to manage your European VAT registration and filing obligations through Seller Central.

To learn more about VAT, visit our VAT educational page and start now with VAT Services on Amazon. Find further information on the Amazon Pan-European FBA website.

Q17: What is European Fulfilment Network (EFN)?
With European Fulfilment Network (EFN), you can reach customers in all 8 EU marketplaces with local product listings. Sellers send their inventory to one local fulfilment centre and deliver to other EU marketplaces with cross-border fees and deliver domestically with local fulfilment fees. For example, an Italian customer shopping on Amazon.it can see products sold by a DE seller with a product listing translated in Italian, and buy it for delivery to Italy. The DE seller would pay cross-border fees if the inventory is in a DE fulfilment centre. Note: Due to Brexit, as of January 1st 2021, Amazon is unable to fulfill FBA orders across the border between the UK and EU. To sell with FBA in both the UK and EU, you will need to send inventory to fulfilment centres in the UK and EU. Click here to learn more.

Q18: What is Multi-Country Inventory (MCI)?
Multi-Country Inventory (MCI) allows you to send items directly to international Amazon fulfilment centres for storage in the other marketplaces that is not your local marketplace. Local FBA fees apply for sales in marketplaces where you store inventory and cross-border fees apply for sales in marketplaces where you do not store inventory; however, you need to manage your inventory and demand forecasting yourself. Amazon.nl does not participate in MCI.

Q19: What are the tax implications of international selling?
If you sell goods in any EU country, it's likely you may be required to register for Value Added Tax (VAT) and comply with VAT filing requirements in each country you sell in. Storing goods in any EU country will likely also require you to comply with VAT obligations in that country. Visit Amazon's VAT Knowledge Centre to find out more. Enroling in VAT services on Amazon can help you manage your VAT compliance obligations. Remember: it's the responsibility of each Amazon seller to ensure they are VAT compliant and you should seek professional advice if you are unsure of your obligations.
